

DEPARTMENT OF DEFENSE
6000 DEFENSE PENTAGON
WASHINGTON, D.C. 20301-6000

CHIEF INFORMATION OFFICER

JUL 31 2012

MEMORANDUM FOR: SEE DISTRIBUTION

SUBJECT: Use of Commercial Mobile Devices Not Connected to Department of Defense Networks

References: (a) DoD CIO Memorandum, "DoD Commercial Mobile Device (CMD) Interim Policy," January 17, 2012
(b) DoDI 8100.04, "DoD Unified Capabilities (UC)," December 9, 2010

Reference (a) allows use of Commercial Mobile Devices (CMDs), with restrictions, for devices that do not require direct connection to Department of Defense (DoD) networks. The CMDs listed at Attachment, are hereby authorized for use by DoD Components, and for placement on the DoD Unified Capabilities Approved Products List. Per Reference (a), the restrictions for use of these non-connected CMDs are:

- Connection to DoD networks is expressly prohibited under any, and all circumstances
- Processing, storing, transmitting, or receiving any persistent information other than that which is publicly releasable and fully Unclassified is specifically prohibited
- Internet access, if enabled, shall occur through a commercial Internet Service Provider
- Access to DoD email is specifically prohibited

Designated Approving Authorities (DAAs) shall approve use of non-connected CMDs within their respective Component. Further, DoD Component DAAs shall be responsible for enforcing the above restrictions for this non-connected use case.

This is step one in our mobility strategy. Our overall goal is full DoD network connectivity at all classification levels. We continue to work through the requirements and risks to make this goal a reality. The point of contact for this matter is Mr. Kris Strance, kris.strance@osd.mil, (571) 372-4670.

Robert J. Carey
Principal Deputy Chief Information Officer
